

Warranty Card

DEAR CUSTOMER

Thank you for choosing PYTES ENERGY. Warm reminder: If the warranty is not registered, it may take some time for us to confirm the customer information when you request the repair, which may cause you inconvenience. Therefore, in order to help you solve the problem faster, please register the Warranty Card within one month after receiving the product.

Power A Better Life

PYTES ENERGY WARRANTY REGISTRATION

Thank you for choosing PYTES ENERGY products. Please follow the steps below to complete warranty registration.

- 1) Please scan the above QR code.
- 2) Please enter the required order and product information.
- 3) If the QR code is not available, please send order information to pytesusa@pytesgroup.com.
- 4) We will inform you of the warranty registration number via email (the warranty registration number cannot be reissued, please keep it well).

NOTE: The manufacturer's warranty is usually one year, it can be extended to two years by completing warranty registration. (*If the warranty registration is not completed, it may take some time for us to confirm the customer information when you request the repair, which may cause you inconvenience. So please register as soon as possible.)
